

Hi Aditya,

If possible I would like you to create a few icons for us per the following specifications. Can you please give me an estimate on the cost.

Icon Set:

Icon Set Specs

Icons in this icon set are:

- Camera
- Photo Gallery
- People
- Album List
- Edit
- Add Album

The icons in this set should have a consistent look. They should look like they are from the same family and belong together. They should all be the same purple color designated below with a transparent background. They should be the same 30x30 size.

Camera Icon

Shape: similar to below.

Size: 30x30 px

Color: #7F20AD (purple) with a transparent background.

Photo Gallery Icon

Shape: I am not fond of the shape below but this is one example. Perhaps you can come up with something better. It needs to look like it fits with the rest of the family.

Size: 30x30 px

Color: #7F20AD (purple) with a transparent background.

People Icon

Shape:

Below are 2 examples. I want an icon with 2 people similar to example #1. But I also want it to have the horizontal lines as in example #2:

Example #1

Example #2

Size: 30x30 px (or slightly wider if necessary).

Color: #7F20AD (purple) with a transparent background.

Album List Icon

Shape: Similar to the shape below but I want each horizontal line to also have a square in front of it as diagrammed below.

Each line in the icon example above should have a leading slightly larger square like so rather than be simple lines. 

Size: 30x30 px .

Color: #7F20AD (purple) with a transparent background.

Edit Icon

Shape: Similar to the example below:

Size: 30x30 px .

Color: #7F20AD (purple) with a transparent background.

Add Album Icon

Shape:

This should be a plus sign similar to below:

But I am worried it will not stand out as a button. So perhaps we need to put a box around it with rounded borders or some other design detail to make it clear that it is a clickable button.

Size: 30x30 px .

Color: #7F20AD (purple) with a transparent background.

Additional Icons

Checkmark Green

Shape and color similar to below:

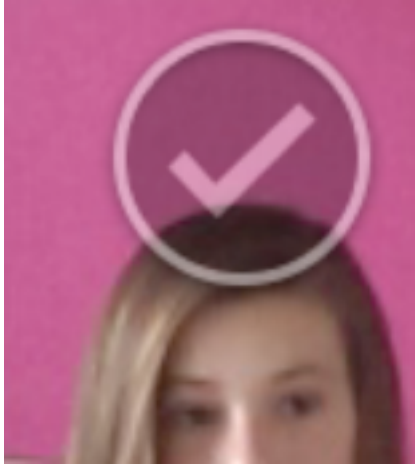

Color: Green and white opaque with transparent background.

Size: 30x30px

Checkmark Semitransparent

Shape and color similar to below:

Color: White and grey semi transparent.
Size: 30x30px

Heart Grey and Red

These are identical to the ones you created for me. You created them as 25x25. I need them as 22x22.

Circular Arrow White

A circular arrow similar to below.

Color: White with transparent background
Size: 30x30px

Up Broken Arrow White

A broken arrow. Similar to below but point upwards rather than to the right. I think the dash spacing can also be visually improved a bit.

Color: White with transparent background

Size: 30x30px
